## **Lytle Creek Road protection project moves forward**

**SAN BERNARDINO** – Crews will soon begin installing erosion protection measures along a section of Lytle Creek Road that washed out during storms in the winter of 2005, according to a contract approved by the Board of Supervisors on Tuesday.

The Board approved a \$171,052 contract to construct a sturdy rock bank along side Lytle Creek Road near Green Mountain Road. The contractor will also replace an existing culvert to enhance drainage under the roadway.

“Lytle Creek Road is vital for residents because it provides the only paved access in or out of the canyon community,” Board of Supervisors Chairman Paul Biane said. “This project will help ensure access to the community during major rainstorms like the ones we experienced in 2005.”

Crews are scheduled to begin work this month and should complete the project in early October.
